

2010/2011

Richer. Deeper. Purer. Clearer.
Totally Exhilarating.

Yamaha Audio and Video

Powered by music

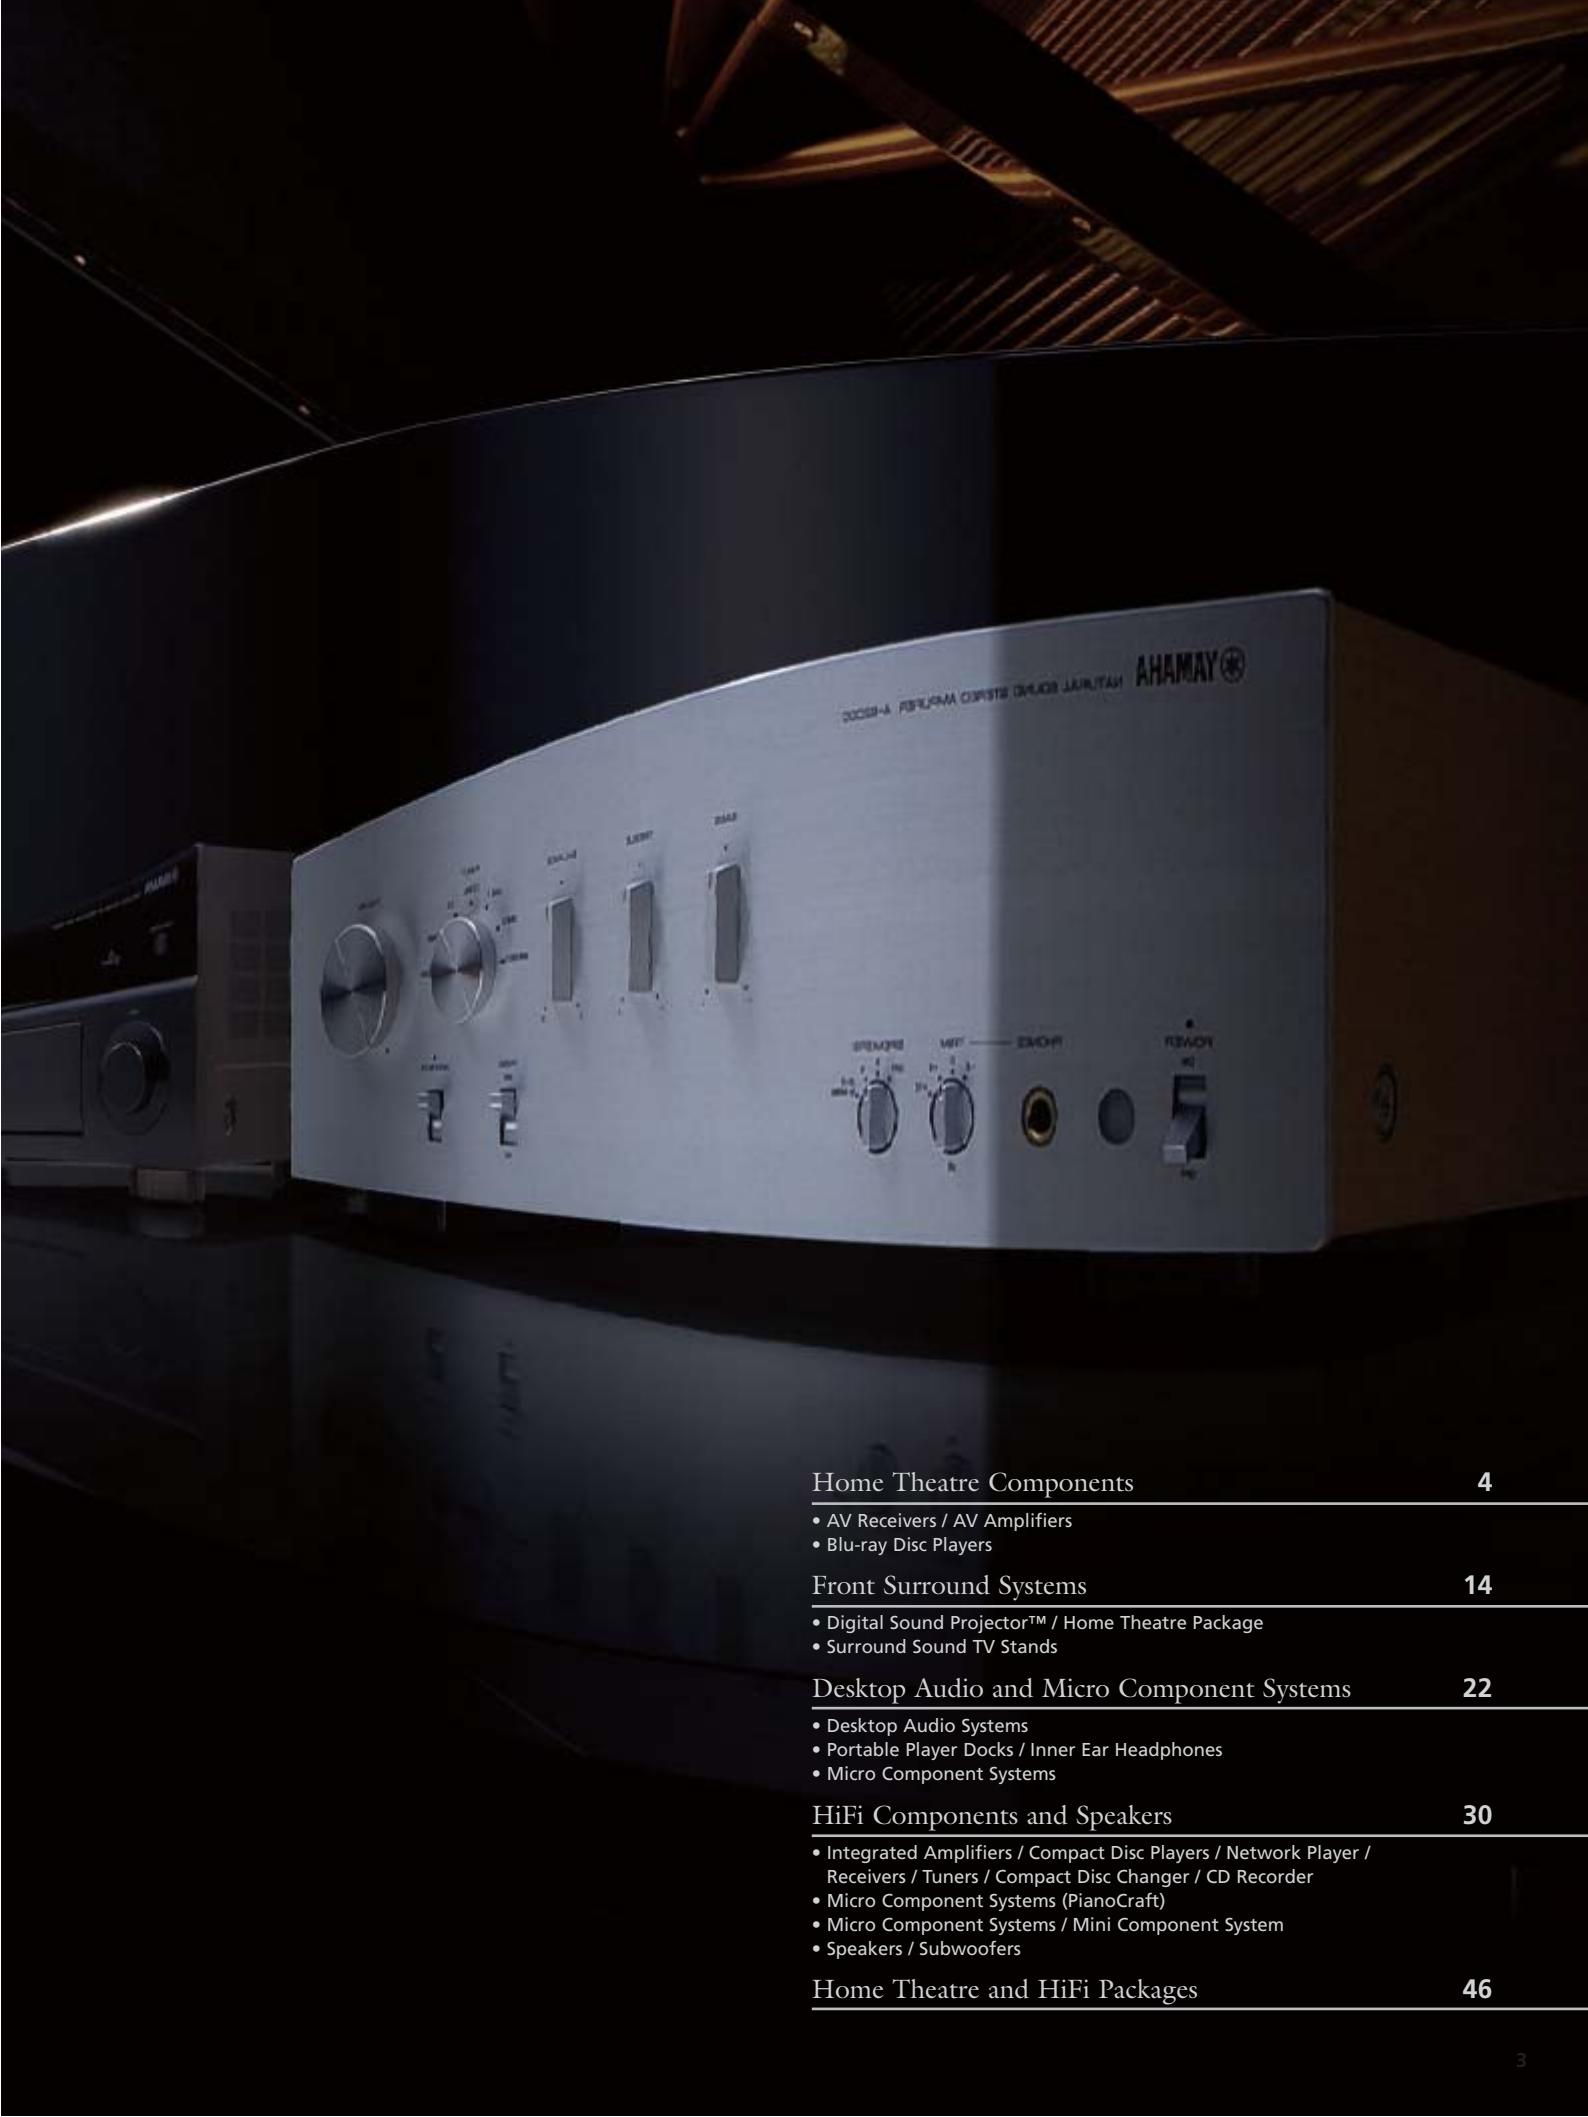

Powered by music

Music has enormous power to move us and arouse our emotions. We love it, we yearn for it, we are devoted to it. Its energy can advance technology and enrich our lives.

In the more than 120 years of our existence, we have been making steady progress, nourished by our unwavering enthusiasm for music. We are continually exploring the possibilities of sound, striving always to bring you a richer musical experience.

Yamaha audio and video: Powered by music.

3D Sound & Vision

CINEMA DSP 3D intensifies the 3D video experience.

If you have decided to move from ordinary home video to 3D video, then it is time to take the next step – into the world of 3D sound.

Yamaha was the first to open the door to this world, with CINEMA DSP 3D technology, the perfect match for 3D movies.

Going beyond 5.1 and 7.1 channel sound, CINEMA DSP 3D allows the addition of two extra presence speakers in the front, for a total of 9.1 channels.

These extra channels enrich and expand the

sound field, taking it wider and especially higher.

Listen to music with the expansive resonance you hear in a large concert hall or cathedral.

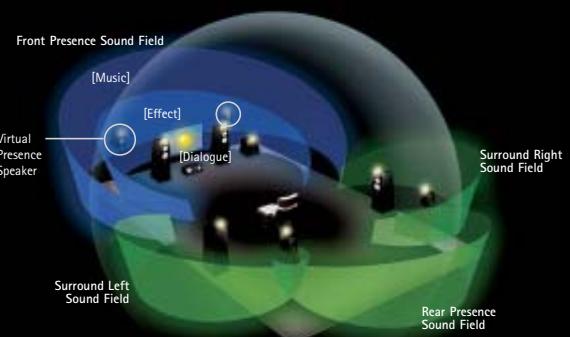

Listen to movies with sounds from above heard clearly, powerfully and accurately located.

You can even enjoy the benefits of CINEMA DSP 3D without two extra speakers, thanks to the Virtual Presence Speaker function.

3D sound and vision – taking home theatre to a new dimension.

Superior Sound Quality, Innovative Features

We use the word “superior” with confidence because first, as the world’s largest manufacturer of musical instruments, no other audio company knows sound and music as well as we do, and second, we are obsessive about the quality of every single part in our products, ALL of which affect the final sound. Our many innovative features, some of which are described below, make operating our products easier and more enjoyable.

Highest Sound Quality

Building on Yamaha’s long tradition of sonic excellence, all of our audio components are designed to provide the highest possible sound quality. Using symmetrical internal layouts, H-shaped cross-member frames, high-speed thermal feedback power amplification, Ultra Low Jitter PLL circuitry and many other exclusive technologies, they deliver high power with low noise and distortion, for sound quality that is a sheer pleasure to listen to.

The latest version of our renowned surround sound technology, CINEMA DSP 3D provides a higher, denser sound field for an incredibly immersive sonic experience. You can even achieve the effect without extra presence speakers, thanks to a Virtual Front Presence mode. HD Audio Format Decoding with CINEMA DSP 3D and Compressed Music Enhancer with CINEMA DSP will further expand your listening enjoyment.

Yamaha AV Receivers have a large number of HDMI terminals, for one-cable connection of various HD digital sources. Version 1.4a includes special features like 3D for 3D video signals and Audio Return Channel.

Audio Return Channel

SCENE

SCENE gives you one-button operation of four settings for AV Receiver and source unit power on, input selection and DSP mode selection. SCENE PLUS adds eight more settings and also provides memory backup of all major parameter settings.

Video signals transmitted via your AV Receiver to your TV have enhanced quality due to the HQV VHD1900 top-class chipset for HD/SD video. You also get the benefits of video adjustment functionality and various advanced noise reduction technologies.

Temporal NR On

This automatic sound optimisation system analyses the room acoustics and measures various speaker characteristics, then calibrates audio parameters to achieve optimum sound at the listening position. YPAO-R.S.C. (Reflected Sound Control) goes even further by correcting for unwanted sound reflections in the room. It also provides DSP Effect Normalisation, which varies the CINEMA DSP parameters according to the reflected sounds.

Yamaha AV Receivers are the perfect control centres for a home entertainment network. Their network functions include support for FLAC 96/24 (high-quality lossless format), compatibility with Windows 7 and DLNA 1.5 (for finding and playing digital sources) and Web Browser Control from a PC or PDA.

Graphic User Interface

With an all-new look and feel, Yamaha's latest GUI offers a greatly improved operating experience. Designed to support HD and 3D video sources, it also provides fade and motion effects. New features include Content Browsing window and Option button on remote.

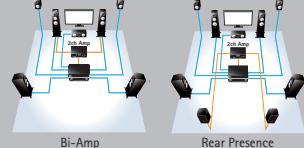

Versatile Amp Assignability

These sophisticated AV Receivers have bi-amping capabilities so you can add an external amplifier to achieve a wide variety of system configurations beyond the standard 5.1- or 7.1-channel systems.

■ Bi-Amp → Zone Speaker (RX-V3067/RX-V2067/RX-V1067)

■ 7.2ch + Bi-Amp → Rear Presence Ch Application (RX-V3067)

- Zone4**
- Zone3**
- Zone2**

Yamaha AV Receivers allow the creation of separate AV zones, so people in different rooms can enjoy music or movies. There are a wide range of customisation possibilities, such as assignable zone video output for creating a second high-quality home theatre. Special features include a Party mode for playing the same music in all rooms, Zone GUI which gives you a comprehensive interface in the second video zone, and system backup.

SILENT™ CINEMA Adaptive DRC

The SILENT CINEMA mode allows private listening enjoyment of multi-channel music or movies, with an accurate simulation of surround sound, through ordinary headphones. Adaptive DRC (Dynamic Range Control) ensures that you hear the maximum dynamic range at all volume levels.

Yamaha offers three optional upgrades to expand your musical choices: the YDS-12 Universal Dock for iPod/iPhone, the YID-W10 AirWired Wireless Dock System for iPod/iPhone, and the YBA-10 Bluetooth Wireless Audio Receiver.

RX-V2067

AV Receiver

- 7-channel 190 W/ch (max); 7-channel 910 W (130 W x 7, RMS)
- H-shape cross-member frame, high-speed thermal feedback power amplifier, DAC on Pure Ground, Ultra Low Jitter PLL circuitry
- 1080p-compatible HDMI (8 in/2 out [simultaneous])
- HQV high-class chipset "VHD1900"
- New SCENE PLUS: 12 SCENE choices (four on front panel and others on GUI) and Zone SCENE
- Network functions with DLNA 1.5 certified
- YPAO-R.S.C. sound optimisation with multi-point measurement
- HDMI (V.1.4a with 3D and Audio Return Channel)
- New on-screen display GUI with album art
- HD Audio decoding with CINEMA DSP 3D, Compressed Music Enhancer with CINEMA DSP, Virtual Presence Speaker function
- Versatile Zone control: Zone video assign and Party mode
- System backup/recovery function
- Dimensions (W x H x D): 435 x 182 x 430 mm • Weight: 16 kg

RX-V3067

AV Receiver

- 7-channel 200 W/ch (max); 7-channel 980 W (140 W x 7, RMS)
- Highest sound quality with H-shape cross-member frame, double bottom construction, high-speed thermal feedback power amplifier, DAC on Pure Ground and Ultra Low Jitter PLL circuitry
- 1080p-compatible HDMI (8 in/2 out [simultaneous])
- HQV high-class chipset "VHD1900"
- New SCENE PLUS: 12 SCENE choices (four on front panel and others on GUI) and Zone SCENE
- Network functions with Web Browser Control (DLNA 1.5 certified)

Front Surround
Systems

Yamaha Timpani TP-5023 with Digital Sound Projector YSP-2200.

It's Not Magic, It's Yamaha

Amazingly wide, deep and rich surround sound with no surround speakers.

5Beam+2 7.1 ch for HD Audio

The Digital Sound Projectors achieve true surround sound by directing sound beams off the walls to reach the listening position from various angles. Everything necessary for projecting the sound is built in, so there is no need for other amps, speakers, cables, etc., making your home theatre system compact and economical. A wide variety of surround sound modes can be selected.

AIR SURROUND XTREME

When you listen to conventional virtual surround systems, you hear all of the sound in, at best, three locations in front of you. In fact, there is no real surround effect. But with AIR SURROUND XTREME, you can actually identify sounds located around and behind you. You hear dialogue from a clear centre channel and other sounds from the front, specific sounds from the other channels to the sides and rear, and smooth sound movement around you.

CINEMA DSP DIGITAL

CINEMA DSP creates complex sound fields based on acoustic patterns developed from a vast database of actual venues and input from film sound technicians, giving you the feeling that you are inside the scene you are watching.

IntelliBeam

IntelliBeam automatically sets the sound beam angles and modes for the best surround sound, while optimising the volume and frequency response of each beam. Your room becomes an ideal theatre space in just a few minutes.

UniVolume

No more sudden blasts of sound! This welcome feature maintains a consistent volume level between different channels, programmes, commercials and input sources. You can switch it on and off.

compressed music ENHANCER

When music is encoded into a digitally compressed format like MP3, the frequency response suffers. This function restores what was lost, so your music always sounds the way it should.

AirWired

Yamaha's exclusive AirWired technology lets you enjoy music from your iPod or iPhone without having to connect any cables. The AirWired link transmits uncompressed data so there is no loss of signal quality, ensuring maximum sound quality.

HDMI™ HIGH DEFINITION MULTIMEDIA INTERFACE

One of the benefits of HDMI is the availability of CEC functionality. When the unit is connected to a CEC-compatible TV, it will turn on and off together with the TV, and you can use the TV remote to control the volume. CEC also provides advanced functionality with other components.

Full Enjoyment of 7.1-Channel HD Audio

YSP-5100 5Beam +2 7.1 ch

Digital Sound Projector

- Includes 40 beam drivers, two woofers and two tweeters with digital amplifiers (120 W total power: 2 W x 40 + 20 W x 2)
- HD Audio format decoding
- 1080p-compatible HDMI (V.1.4a with 3D and Audio Return Channel, 4 in/1 out) with Deep Colour, x.v.Colour, Auto Lip-Sync and CEC functionality
- IntelliBeam Automated System Calibration
- Versatile listening modes: 5 BeamPlus2, Stereo + 3 BeamPlus2, 5 Beam, Stereo + 3 Beam, 3 Beam and Stereo.

- Analogue video to HDMI digital video upconversion
- 11 CINEMA DSP programmes: Three Movie, three Music and five Entertainment
- UniVolume

- Includes 40 beam drivers and two woofers with digital amplifiers (120 W total power: 2 W x 40 + 20 W x 2)
- Dimensions (W x H x D): 1,030 x 212 x 90 mm • Weight: 10 kg

YSP-2200

5 Beam +2 7.1 ch

Digital Sound Projector

- Low profile soundbar allows positioning in front of most TVs for a neat and compact AV system
- Digital Sound Projector technology provides true surround sound
- Built-in 132 W digital amplifier
- Versatile listening modes: 5 BeamPlus2 for full surround 7.1-channel output, 3 BeamPlus2 + Stereo, 5 Beam, Stereo + 3 Beam, 3 Beam, Stereo and My Surround
- 11 CINEMA DSP programmes: 3 Movie, 3 Music, 5 Entertainment
- Music Enhancer improves the sound of compressed sources such as iPod
- HD Audio format decoding
- 1080p-compatible HDMI (V.1.4a with 3D and Audio Return Channel, 3 in/1 out) with Deep Colour, x.v.Colour, Auto Lip-Sync and CEC functionality
- IntelliBeam Automated System Calibration
- UniVolume keeps volume during TV programmes and commercials at the same level
- Centre unit dimensions (W x H x D): weight: 944 x 79 – 89 (height-adjustable) x 145 mm; 4.3 kg
- Subwoofer dimensions (W x H x D): weight: 435 x 137 x 350 mm (Horizontal); 6 kg

UniVolume IntelliBeam

Flexible-placement subwoofer
Supplied subwoofer can be placed vertically or horizontally for use in or next to a rack.

Slim and Height-Adjustable
The YSP-2200 is only 79 mm high, so you can place it in front of most flat screen TVs without blocking the picture. The height-adjustable feet let you achieve optimum positioning.

YHT-S400

AIR SURROUND XTREME

Home Theatre Package

YHT-S400 includes Front Speaker System (NS-BR300) and Subwoofer-Integrated Receiver (SR-300)

- Total 250 W (50 W x 3 + 100 W subwoofer) power
- 50 mm height slim sound bar
- Width and height-adjustable feet
- 1080p-compatible HDMI (V.1.4a with 3D, 3 in/1 out)
- Yamaha's Exclusive AIR SURROUND XTREME
- UniVolume
- HDMI CEC functionality
- iPod/Bluetooth® compatibility
- Dimensions (W x H x D): 800 x 50 x 70 mm (NS-BR300); 435 x 151 x 361 mm (SR-300)
- Weight: 1.5 kg (NS-BR300); 8.6 kg (SR-300)

Width and Height-Adjustable Feet
Lets you put the unit in front of most TVs from 32" to 50", no matter what shape and width the TV stand is. The feet can also be removed.

Subwoofer-Integrated Receiver
With a subwoofer built into the receiver, you can enjoy powerful bass sound without having to purchase a separate subwoofer.

5 Beam +2 for HD Audio **7.1 ch**

AIR SURROUND
XTREME

AIR SURROUND XTREME

YHT-S300

Home Theatre Package

YHT-S300 includes Front Speaker System (NS-B380) and Subwoofer-Integrated Receiver (SR-300)

- Horizontal or vertical use (Speakers)
- Dimensions (W x H x D): 90 x 220 x 109 mm (NS-B380)
- Weight: 0.92 kg/unit (NS-B380)

AIR SURROUND
XTREME

Horizontal or Vertical Use
You can use the speakers in either a horizontal or vertical position — place them beside or even in front of the TV.

Desktop Audio &
Micro Component
Systems

Yamaha Electric Guitar SG1820 (Vintage White) with Desktop Audio System TSX-70 (Dark Blue).

Music in Living Colour

Enjoy your favourite music anywhere in your home with these stylish, colourful products.

AirWired™

AirWired makes it easy to enjoy music from your iPod/iPhone via a wireless link. You also get outstanding sound quality, because AirWired technology transmits uncompressed data so there is no loss of signal data, unlike systems that use Bluetooth technology to send compressed data. In addition, there is no delay time, ensuring that sound and video are always in sync.

SR-Bass™

The SR-Bass design uses a "Swing Radiator" diaphragm that moves by the vibration of the main diaphragm and efficiently increase bass energy. This produces larger sound pressure levels for deeper and stronger bass sound.

IntelliAlarm™

Ease into your day with a new approach to waking up. Yamaha's new IntelliAlarm wakes you gently with the audio source of your choosing, first filtering out uncomfortable high frequencies, then gradually restoring the full audio spectrum before beeping to ensure you are awake. This function makes the waking experience as comfortable as possible.

TSX-140

Desktop Audio System

Upright multimedia sound system with iPod/iPhone digital connection, "Touch Smart" control and IntelliAlarm.

- Thin, upright design for easy placement
- Simple, clean styling with three colour choices
- Digital connection for iPod/iPhone
- iPod/iPhone iTunes sync and charging
- Intuitive "Touch Smart" control
- IntelliAlarm
- Digital enhancement: Music Enhancer and Extended Stereo
- 15 W x 2 power, 3-band parametric equaliser
- CD player and 5-station preset FM tuner
- USB port on top panel
- Dimensions (W x H x D): 399 x 181 x 137 mm • Weight: 3.2 kg

"Touch Smart" Control

The three "Touch Smart" knobs make operation quick and easy. Just give them a twist to select the source, adjust the volume and choose a preset station. In EQ mode, they shift to low, mid and high range controls so you can achieve exactly the sound you want. The display switches to EQ mode as well.

iPod/iPhone iTunes Sync and Charging

Sync and charge your iPod/iPhone in the TSX-140. Connect the TSX-140 to your computer via a USB cable.

TSX-130

Desktop Audio System

Enjoy music from all your favourite sources with this attractive all-in-one audio system.

- Connect USB players/devices via port on top panel to play MP3 and WMA tracks.
- CD player and 30-station preset FM tuner
- Convenient flat top panel made of real wood
- 15 W x 2 power output
- Handy card-type remote unit
- The flat top design does not waste space – you can put your keys, glasses, mobile phone, etc. on it.
- Dimensions (W x H x D): 350 x 120 x 240 mm • Weight: 4 kg

Advanced YST Technology delivers big bass sound

Advanced Yamaha Active Servo Technology (YST) is a major reason for the high performance of Yamaha speakers, and is especially suited for small speakers. The CD receiver and speakers work together, using negative impedance drive to produce small low-frequency signals, which are enhanced to large outputs by the precisely designed speaker cabinet and port. The result is powerful, accurate bass that seems to be coming from a much larger speaker.

Advanced YST Technology principle

- Remote control from an iPod
- Automatic power on and automatic volume control
- Uncompressed wireless audio transmission (linear PCM)
- Real-time communication
- Audio and video synchronisation

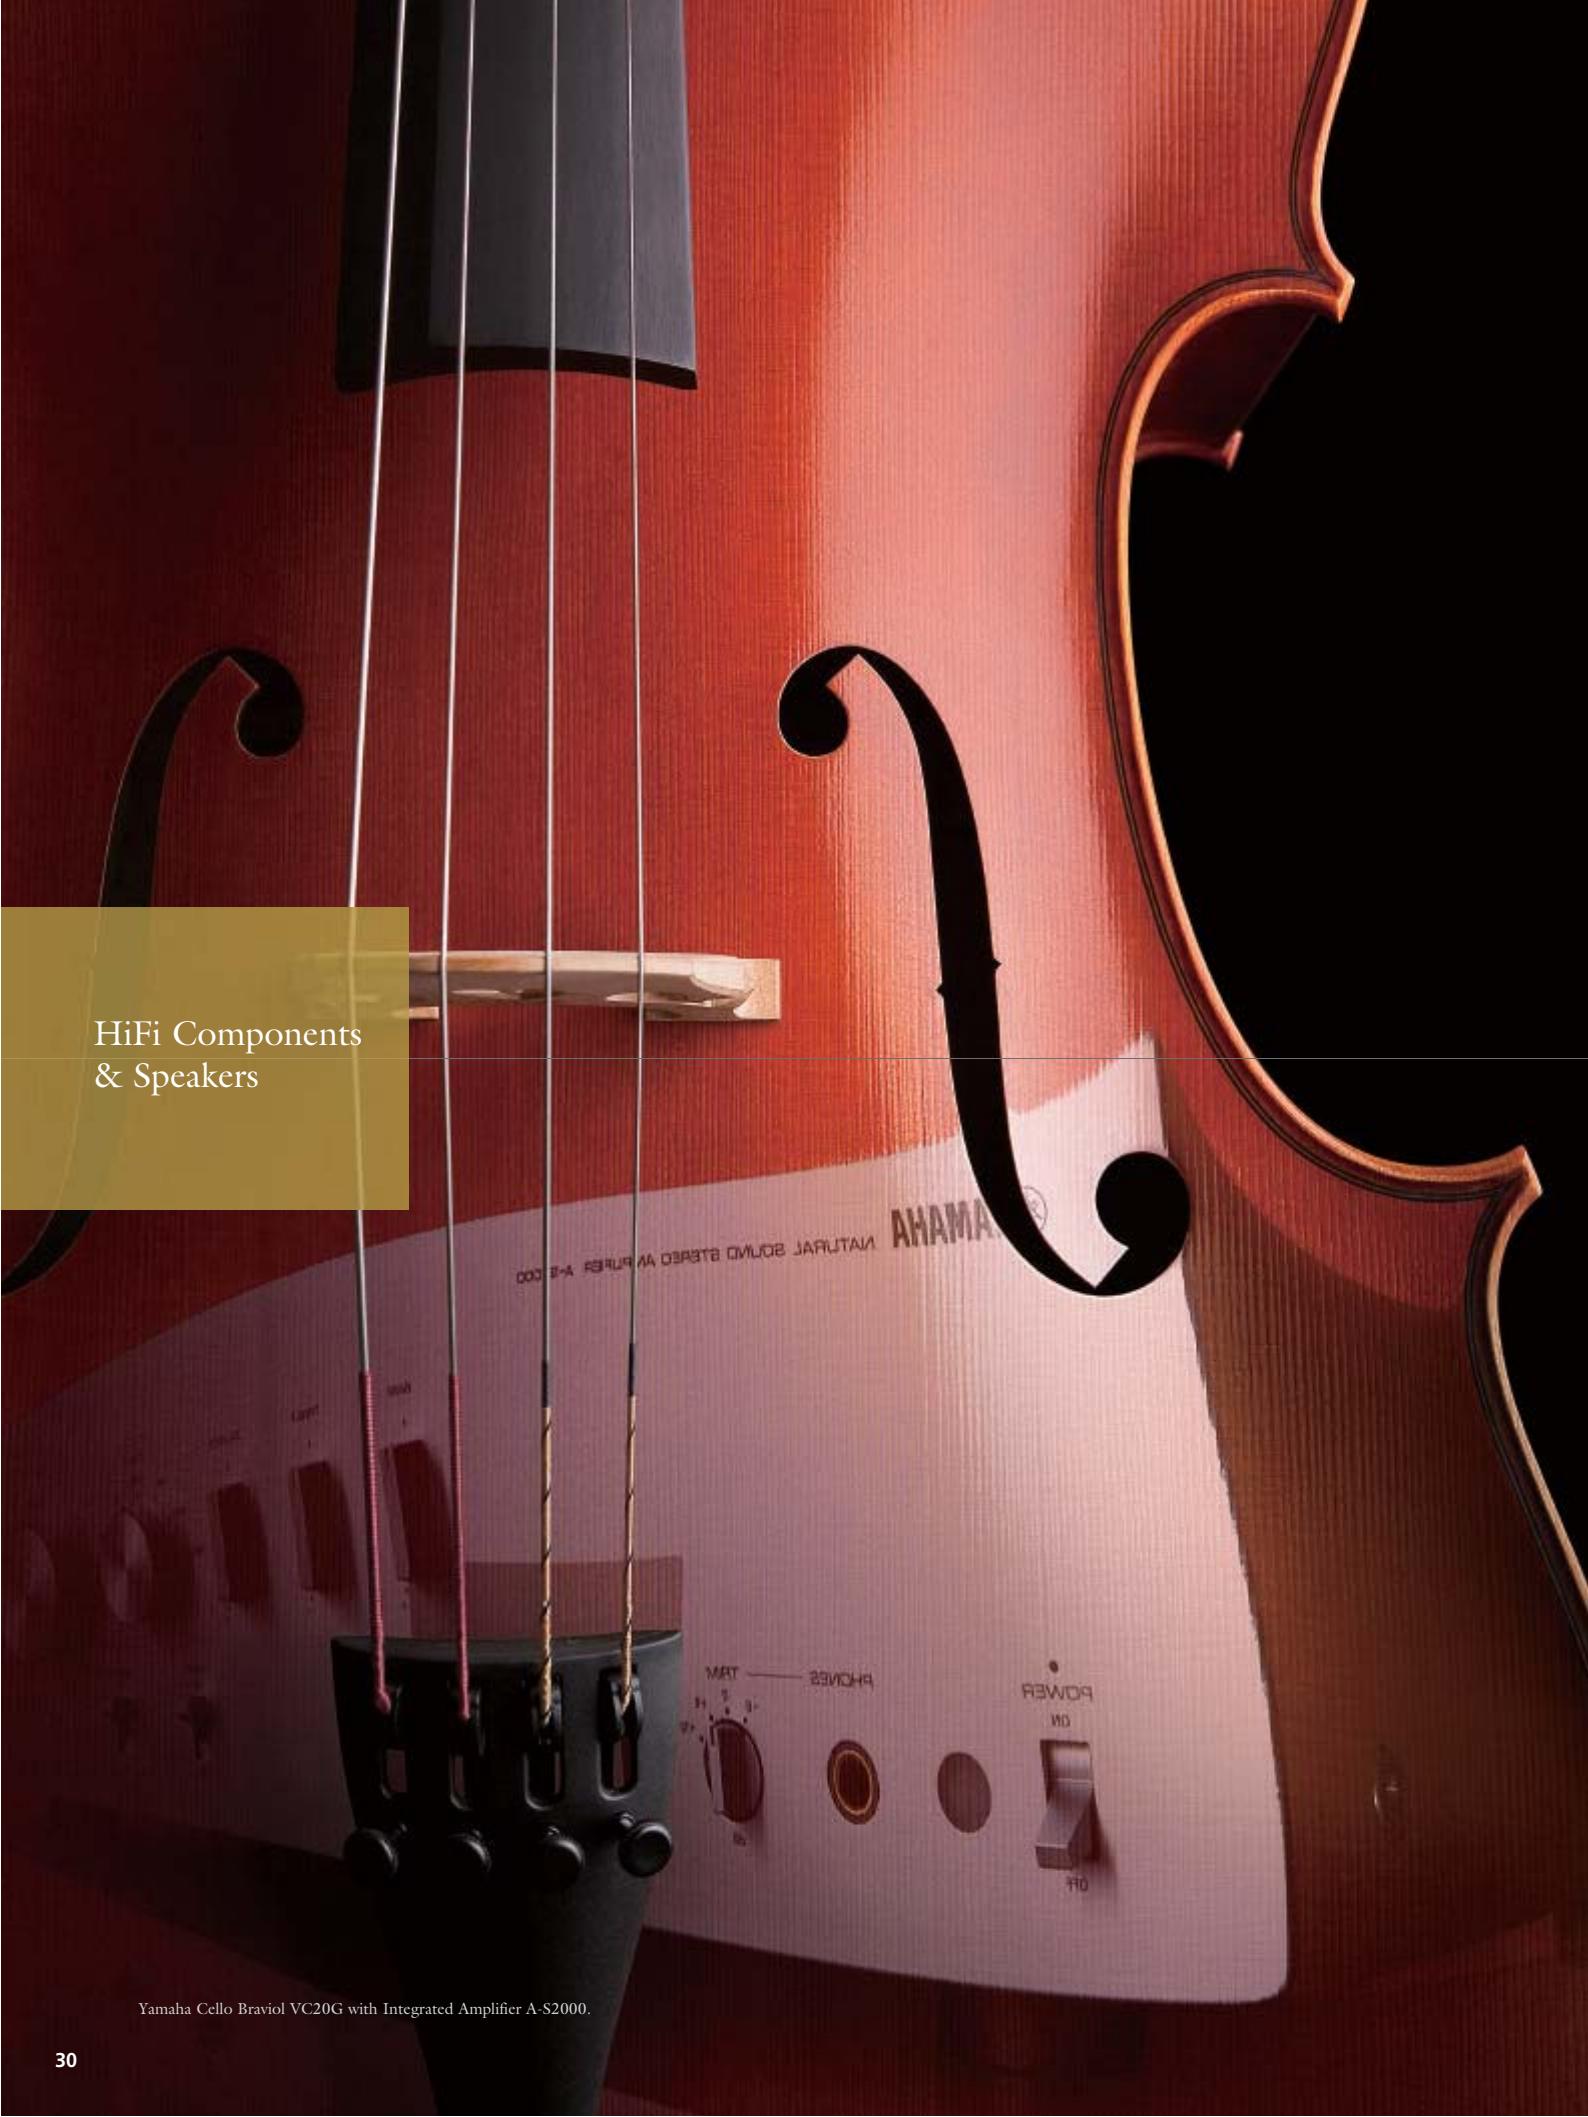

MCR-140

■ Enjoy sound from an iPod and a subwoofer with no wires!

- iPod charges when placed with transmitter into the CD Receiver cradle.

HiFi Components
& Speakers

Yamaha Cello Braviol VC20G with Integrated Amplifier A-S2000.

Fine Music in the Yamaha Tradition

HiFi Components that revive and refine the superlative audio quality that made Yamaha famous.

The Look and Texture of Quality

All of the Yamaha HiFi components feature the same sleek, clean design, with an elegant aluminium front panel and silky touch volume/selector knobs. The aluminium front panel is used to effectively shield sensitive low-level circuitry from external noise and electronic radiation generated by dimmer switches, fluorescent lighting, video monitors and so on. This ensures optimum sonic performance in the widest range of installation environments.

ToP-ART Sound Quality Design

Yamaha's ToP-ART (Total Purity Audio Reproduction Technology) design concept uses a symmetrical layout for lowest possible noise and interference. The ART Base chassis and centre bar reinforces the internal structure to further prevent vibration from affecting sound quality. The quality of each individual part, as well as how they work together, basically determines the sound quality of any component. We use the highest quality parts, carefully selected and tested.

Exclusive Yamaha Loading Mechanism with Superior Quietness and High Precision CD Drive

The mechanism that picks up the signal is actually analogue, even during the digital reproduction of a CD. So, its degree of precision has a surprisingly large effect on the reproduction of the digital signals and the final sound. Yamaha CD players feature the Exclusive Yamaha Loading Mechanism with Superior Quietness that solidly supports the CD drive, and a highly reliable brushless spindle motor. The aluminium disc tray provides a luxurious touch matched to the superb sound quality.

A-S2000

Integrated Amplifier

- 160 W x 2 (max), 90 W x 2 (RMS) high power output
- I/O (input to output) Direct Symmetrical Design
- Full-stage balanced signal transmission
- Floating balanced power amp
- Fully balanced control amp
- XLR balanced input terminals
- Three parallel balanced volume and tone controls

- Shunt type local regulators for preamplifier
- Discrete headphone amp for low-impedance drive
- Discrete phono amp with high-precision head amp and equaliser amp
- Specially designed feet
- Dimensions (W x H x D): 435 x 137 x 465 mm
- Weight: 22.7 kg

Silver finish (Birch or Piano finish on the sides) and Black finish (Dark Brown finish on the sides) available

CD-S2000

Compact Disc Player

- Full-stage balanced signal transmission achieves the ultimate in CD reproduction
- Full-stage balanced signal transmission begins from DAC
- XLR balanced output terminals
- Independent power supplies with digital and analogue sections completely separate
- Exclusive Yamaha Loading Mechanism with superior quietness and high precision CD Drive
- Heavy-duty construction
- Specially designed feet
- Pure Direct
- Super sound from Super Audio CDs
- Dimensions (W x H x D): 435 x 137 x 440 mm
- Weight: 15 kg

Silver finish (Birch or Piano finish on the sides) and Black finish (Dark Brown finish on the sides) available

HiFi, Networked. The future of home audio is here

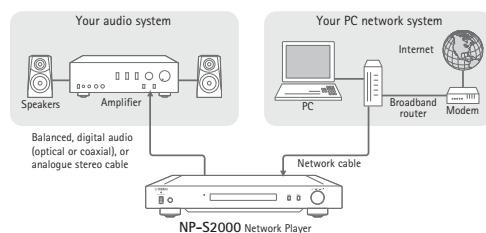

You already have lots of music sources. In the future, you'll probably have more.

Instead of having to access them separately, now you can network them all together.

The NP-S2000 Network Player links all your sources – iPod, Internet radio, NAS and much more – with easy access via a Web browser.

And the Network Pure Audio sound quality is even better than your present sources.

It's the future of home audio – and it's here right now.

NP-S2000

Network Player

- Full-stage balanced signal transmission beginning with Burr-Brown DACs
- Completely separate digital and analogue sections with independent power supplies
- XLR balanced output terminals
- iTunes-compatible server
- Versatile Web browser interface

- Compatible with most server software
- Specially designed feet
- Terminal for detachable power cable
- Dimensions (W x H x D): 435 x 69 x 440 mm
- Weight: 12 kg

Black finish (Dark Brown finish on the sides) available

Better Sound Quality

No Motor, No Mechanism

The NP-S2000 receives inputs from all of your media sources and outputs them to your audio system. It does not have its own hard drive, DVD/CD mechanism or motor. This means no noise caused by hard drive motors and actuators, no mechanism noise and no jitter from data buffering. The sound you hear has much greater clarity, detail and presence than anything you are used to.

Dual DACs, Full-Balanced Transmission

Two high-precision Burr-Brown D/A converters are used, dedicated to the left and right stereo channels. The outputs are then sent through balanced transmission circuits. When connected to an amplifier with balanced input (the Yamaha A-S2000 is the best choice), the result is dramatically higher sound purity than from conventional systems.

Two Independent Power Supplies

The NP-S2000 uses two high performance power supplies, a toroidal transformer for the analogue section and an IE core transformer for the digital section. This ensures higher, more stable power, while allowing the two sections to be completely isolated to prevent any interference.

Easier Access and Control

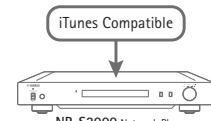

Easy Setup, Web Browser Interface

The NP-S2000 comes with a setup application that guides you through installation step-by-step, making it easy to create your own digital audio network. After setup, you can get quick, easy access to all your media via a Web browser interface, which you can use from your computer, smartphone, netbook or other devices.

iTunes Server Software

This versatile network player comes bundled with TwonkyMedia server software for seamless operation with Apple iTunes. You have complete, convenient access to your full iTunes library and playlists.

Dedicated Remote Control Included

The included remote control unit offers convenient basic operations such as volume control, next/last track, etc.

Extensive HiFi Lineup

Yamaha offers four amplifiers and three receivers with sound purity and design elegance inherited from the A-S2000.

Matching CD players and tuners allow you to assemble a full HiFi system that's perfect for your needs.

A-S2000 Integrated Amplifier

A-S1000

Integrated Amplifier

- 160 W x 2 (max), 90 W x 2 (RMS) high power output
- I/O (input to output) Direct Symmetrical Design
- Floating balanced power amp
- Three parallel volume and tone controls
- Four large capacity power supplies for power amp

- Shunt type local regulators for preamplifier
- Discrete headphone amp for low-impedance drive
- Specially designed feet
- Dimensions (W x H x D): 435 x 137 x 465 mm
- Weight: 22 kg

Silver finish (Birch or Piano finish on the sides) and Black finish (Dark Brown finish on the sides) available

CD-S1000

Compact Disc Player

- Balanced signal transmission from DAC
- Transformer with isolated digital, analogue, motor drive and display sections to prevent noise
- Symmetrical circuitry
- Exclusive Yamaha Loading Mechanism
- Heavy-duty construction
- Specially designed feet
- Pure Direct
- Dimensions (W x H x D): 435 x 137 x 440 mm
- Weight: 15 kg

Silver finish (Birch or Piano finish on the sides) and Black finish (Dark Brown finish on the sides) available

T-S1000

Tuner

- Superior construction with heavy chassis, aluminium front panel and wood side panels
- High-quality parts used in all circuitry
- 40-station AM/FM preset tuning and Radio Data System
- 2-line, 16-character display
- Extra heavy, vibration-damping feet
- Design matches that of the A-S2000/CD-S2000 and A-S1000/CD-S1000
- Dimensions (W x H x D): 435 x 94 x 450 mm
- Weight: 5.8 kg

Silver finish (Birch or Piano finish on the sides) and Black finish (Dark Brown finish on the sides) available

A-S700

Integrated Amplifier

- 160 W x 2 (max), 90 W x 2 (RMS) high power output
- ToP-ART (Total Purity Audio Reproduction Technology)
- I/O (input to output) Direct Symmetrical Design with high-quality parts, ART (Anti-Resolution and Tough) Base and solid centre bar
- CD Direct Amplification

- Pure Direct
- Gold-plated input terminals
- Aluminium front panel and knobs
- Rec out selector
- Terminal for detachable AC cable
- Dimensions (W x H x D): 435 x 151 x 382 mm • Weight: 10.9 kg

CD-C600

Compact Disc Changer

PlayXchange™, Made for iPod, USB, DSD

- Yamaha's Exclusive PlayXchange
- Fully opening disc tray for changing five discs at a time
- Pure Direct
- Extremely sophisticated circuitry and layout for short signal paths
- High performance DAC
- MP3 and WMA compatibility
- USB port on front panel for iPod and other devices
- iPod compatibility
- RS-232C interface and IR in/out
- Dimensions (W x H x D): 435 x 116 x 405 mm
- Weight: 6.2 kg

Black finish available

T-D500

Tuner

- Dual-band DAB (Band III and L-Band), DAB+, AM and FM
- 40-station DAB/DAB+, 30-station FM and 30-station AM preset tuning
- Auto FM/AM station memory
- Radio Data System broadcast reception
- 2-line, 16-character (5x7 dot matrix) display
- New remote unit
- Design matches Yamaha HiFi components
- Dimensions (W x H x D): 435 x 87 x 306 mm
- Weight: 3.3 kg

Black finish available

CDR-HD1500

CD Recorder

- Linear PCM 16-bit/44 kHz recording (no compression)
- 24-bit DAC/ADC
- Audio Master Quality Recording mode (CD-R only)
- CD-HDD-CD recording maintains full digital quality
- Hard disk holds 400 CDs of music.
- Easy, extensive editing possible before recording CDs
- 179 minutes and 59 seconds continuous external source recording
- High-speed ripping and high-speed rec
- Jog dial for fast track access
- On-screen display
- Synchronised rec mode
- Timer rec
- Title input via RS-232C interface
- Time search
- Copyright protection
- Dimensions (W x H x D): 435 x 116 x 415 mm
- Weight: 8.2 kg (except HDD)

Titanium finish available

T-S500

Tuner

- 40-station AM/FM preset tuning
- Auto FM/AM station memory
- Radio Data System broadcast reception
- Multi-status station memory
- 2-line, 16-character (5 x 7 dot matrix) display
- Design matches Yamaha HiFi components
- Dimensions (W x H x D): 435 x 87 x 306 mm
- Weight: 3.2 kg

Black finish available

Versatile, convenient, high-capacity digital recording.
Ideal for a variety of uses including as a high-quality jukebox.

Easy and Fun: ripping, editing, playback and burning new CDs

If listening to music is important to you, the CDR-HD1500 is going to make your life a lot more enjoyable. You can rip over 400 CDs onto the hard disc, then group the songs together for playback and recording. Creating your own personal CD collection is easy and fun.

You'll also appreciate the CDR-HD1500's superb audio quality, high-speed operation, versatile functions and fast music access. In fact, the more you use it, the more you'll realise that this is a machine designed by music enthusiasts, for music enthusiasts. Make the most of it!

Optional Accessories for Added Convenience

Wireless Dock System for iPod/iPhone

(for R-S700/R-S500/R-S300/A-S500/A-S300)

YID-W10

Wireless Dock System for iPod/iPhone

The optional YID-W10 ensures that you enjoy maximum sound quality and no lip sync (AV matching) problems.

- Transmitter dimensions (W x H x D); Weight: 45.3 x 94 x 17.6 mm; 42 g
- Charging cradle dimensions (W x H x D); Weight: 91 x 54 x 88 mm; 260 g

AirWired

Universal Dock for iPod/iPhone

(for R-S700/R-S500/R-S300/A-S500/A-S300)

YDS-12

Universal Dock for iPod/iPhone

The optional YDS-12 Universal Dock lets you connect your iPod or iPhone to the receiver.

- Dimensions (W x H x D); Weight: 89 x 37 x 86 mm; 160 g

Bluetooth® Wireless Audio Receiver

(for for R-S700/R-S500/R-S300)

YBA-10

Bluetooth® Wireless Audio Receiver

The optional YBA-10 supports A2DP audio streaming, enjoying music wirelessly from Bluetooth-enabled mobile phones, Windows PCs and Macs.

- Dimensions (W x H x D); Weight: 80 x 50 x 70 mm; 153 g

*A century of musical passion expressed
in a decade of HiFi performance.*

Yamaha - Powered by Music

A New Style of Audio Excellence

Yamaha PianoCraft systems have a high reputation for audio and design excellence. However, our goal for these three Micro Component Systems was to maintain and even exceed previous levels of sound quality. We achieved this by concentrating the outstanding audio performance capabilities of our premier separate components into the small units of a micro component system. We thus remained true to the Yamaha commitment to deliver sound that faithfully reproduces the natural rhythmic feeling and rich expressiveness of musical instruments and the human voice.

Superior Performance from Each Component

These three MCR systems feature the R-840 Receiver, which delivers much higher audio performance than normal micro component units. Their disc players use high-quality parts and circuitry that provide excellent audio reproduction from a compact chassis. The speakers are also first-rate, employing Yamaha's own VCCS (Vibration Control Cabinet Structure) technology to eliminate the vibrations that can degrade sound quality.

MCR-940

Micro Component System

[R-840 Receiver]

- 65 W x 2 high power output
- Discrete amplifier configuration, advanced electronic volume
- Pure Direct
- 30-station FM tuning with Radio Data System
- Dimensions (W x H x D): 215 x 110 x 348 mm • Weight: 5.7 kg

[BD-940 Blu-ray Disc Player]

- First micro component Blu-ray Disc player
- 1080p/24 Hz-compatible HDMI video output
- HDMI CEC functionality
- Dimensions (W x H x D): 215 x 108 x 318 mm
- Weight: 3.4 kg

[NS-BP300 Speakers]

- Elegant and environmentally friendly Yamaha Piano Finish
- VCCS (Vibration Control Cabinet Structure) technology
- Anti-vibration feet to prevent additional oscillation
- Dimensions (W x H x D): 176 x 318 x 305 mm
- Weight: 4.3 kg/unit

MCR-840

Micro Component System

[R-840 Receiver]

[DVD-840 DVD Player]

- 1080p-compatible HDMI output
- 192 kHz/24-bit audio DAC
- Short signal routing and high-quality parts
- USB port (USB device charges even in standby)
- Dimensions (W x H x D): 215 x 108 x 318 mm • Weight: 2.8 kg

[NS-BP300 Speakers]

MCR-640

Micro Component System

[R-840 Receiver]

[CD-640 CD Player]

- Extremely sophisticated circuitry and layout
- Short signal paths and high-quality parts
- Differential D/A Converter
- USB port (USB device charges even in standby)
- Dimensions (W x H x D): 215 x 108 x 318 mm • Weight: 3.2 kg

[NS-BP300 Speakers]

These models are not available in certain areas.

iPod digital connection capability.

MCR-550

Micro Component System

[CRX-550 CD Receiver]

- CD Receiver uses finest quality parts, including custom-made block capacitors, high-precision Burr-Brown DAC, large speaker terminals
- iPod digital connection for superior audio performance
- Music Enhancer and bit data expansion
- 32 W x 2 low-distortion power
- USB port on top panel
- Subwoofer out
- Dimensions (W x H x D): Weight: 215 x 125 x 309 mm; 4.8 kg

[NS-BP200 Speakers]

- 2-way bass-reflex speakers – sound tuning performed in Europe
- New cabinet design for extra-powerful bass output
- Dimensions (W x H x D): 154 x 274 x 287 mm; 3.9 kg/unit

The CRX-550 CD Receiver is available in Black or Silver. The NS-BP200 Speakers are available in Piano Black or Piano White.

PianoCraft E730

Micro Component System

- 1080p-compatible HDMI output
- iPod/Bluetooth® compatibility
- USB port
- 30 W x 2 high power output
- 30FM/20AM-station preset tuning
- Subwoofer out
- 2-way bass-reflex speaker system
- 11 cm woofer and 2.5 cm dome tweeter
- Centre unit dimensions (W x H x D); Weight: 215 x 113 x 300 mm; 2.9 kg
- Speaker dimensions (W x H x D); Weight: 165 x 255 x 183 mm; 3.4 kg/unit

Made for
iPod iPhone

YDS-12
Optional Universal Dock for
iPod/iPhone

iPhone not included.

YBA-10
Optional Bluetooth®
Wireless Audio Receiver

MCS-1330

Mini Component System

- Slimmest (60 mm height) Receiver and CD Player
- 70 W x 2 high power output (max for Europe)
- Pure Direct
- USB port on CD player front panel
- Burr-Brown DAC (DSD1791), the same used in top-class components
- VCCS (Vibration Control Cabinet Structure) technology
- Receiver dimensions (W x H x D); Weight: 300 x 67 x 336 mm; 5.8 kg
- CD player dimensions (W x H x D); Weight: 300 x 67 x 310 mm; 3.8 kg
- Speaker dimensions (W x H x D); Weight: 176 x 310 x 330 mm; 5.9 kg/unit

The MCS-1330 is available with Piano Black and Piano White finish
(same process as used on Yamaha grand pianos)

MCR-330

Micro Component System

- USB port on top panel
- FM tuner
- 20 W x 2 high power output
- Subwoofer out
- Outstanding powerful bass sound from compact body
- Centre unit dimensions (W x H x D); Weight: 180 x 117 x 303 mm; 3.1 kg
- Speaker dimensions (W x H x D); Weight: 123 x 192 x 296 mm; 2.3 kg/unit

* iPod and USB device not included with MCR-550, MCS-1330, MCR-330 and MCR-230.

MCR-230

Micro Component System

- USB port on top panel
- FM tuner
- 20 W x 2 high power output
- Subwoofer out for adding a subwoofer
- Outstanding powerful bass sound from compact body
- Centre unit dimensions (W x H x D); Weight: 180 x 117 x 303 mm; 3.1 kg
- Speaker dimensions (W x H x D); Weight: 123 x 192 x 294 mm; 2.1 kg/unit

Soavo

At Yamaha, we love, understand and respect music. We're sure that you love music, too, and when you listen to it, you want it to sound as natural as possible. We believe that "natural sound" is the original sound of music instruments, and of the human voice, so they should be reproduced with nothing added or taken away. Giving you this beautiful music experience is the reason we created the Soavo series. Listen to Soavo, and discover how truly natural music from a speaker can be.

Soavo-1 Piano Black Finish

This glossy, lustrous black finish is applied using the same techniques developed over many decades of manufacturing beautiful grand pianos. It provides a perfect visual complement to the smooth, rich sound you enjoy from the speakers.

Soavo-1

3-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 200 W • Frequency response: 35 Hz–50 kHz • Dimensions (W x H x D); Weight: 349 x 1,051 x 487 mm; 27 kg/unit

Soavo-3

3-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 160 W • Frequency response: 35 Hz–50 kHz • Dimensions (W x H x D); Weight: 349 x 1,051 x 487 mm; 26.5 kg/unit

Soavo-2

2-Way Bass-Reflex Bookshelf Speakers

- Maximum input power: 120 W • Frequency response: 45 Hz–50 kHz • Dimensions (W x H x D); Weight: 220 x 380 x 353 mm; 9.7 kg/unit

Soavo-900M

2-Way Bass-Reflex Speakers

- Maximum input power: 120 W • Frequency response: 56 Hz–50 kHz • Dimensions (W x H x D); Weight: 220 x 349 x 237 mm; 6 kg/unit

SPS-900
Optional Speaker Stands for Soavo-2

- 360 x 415 mm (base), 603 mm (height), 6.5kg/unit

Soavo-900C

2-Way Bass-Reflex Centre Speaker

- Maximum input power: 200 W • Frequency response: 56 Hz–50 kHz • Dimensions (W x H x D); Weight: 500 x 170 x 271 mm; 8.6 kg

Soavo-900SW

Advanced YST II and Front-Firing Subwoofer

- Dynamic power: 600 W • Frequency response: 18–160 Hz • Dimensions (W x H x D); Weight: 410 x 457 x 462 mm; 32 kg

Dark brown birch Brown birch Natural birch Black birch

The Soavo-1, Soavo-2, Soavo-3, Soavo-900M, Soavo-900C and Soavo-900SW are offered with dark brown birch, brown birch, natural birch, or black birch finish available
• Soavo colours vary depending on area

NS-700 Series

NS-C700

2-Way Acoustic Suspension Centre Speaker

- Maximum input power: 160 W • Frequency response: 60 Hz–50 kHz • Dimensions (W x H x D): 500 x 170 x 170 mm; 7 kg

NS-B700

2-Way Acoustic Suspension Speakers

- Maximum input power: 120 W • Frequency response: 65 Hz–50 kHz • Dimensions (W x H x D): Weight: 150 x 270 x 154 mm; 3.5 kg/unit

NS-B750

2-Way Bass-Reflex Bookshelf Speakers

- Maximum input power: 120 W • Frequency response: 60 Hz–50 kHz • Dimensions (W x H x D): Weight: 198 x 350 x 290 mm; 6.7 kg/unit

NS-SW700

Advanced YST II and QD-Bass Subwoofer

- Dynamic power: 300 W • Frequency response: 20–160 Hz • Dimensions (W x H x D): Weight: 406 x 445 x 406 mm; 21 kg

NS-F700

3-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 160 W • Frequency response: 45 Hz–50 kHz • Dimensions (W x H x D): Weight: 354 x 1,012 x 374 mm; 25 kg/unit

The NS-700 Series are offered with Yamaha Piano Black finish and Brown Open Pore finish available

NS-500 Series

NS-C500

2-Way Acoustic Suspension Centre Speaker

- Maximum input power: 160 W • Frequency response: 55 Hz–50 kHz • Dimensions (W x H x D): Weight: 445 x 158 x 159 mm; 4.7 kg

NS-B500

2-Way Acoustic Suspension Bookshelf Speakers

- Maximum input power: 120 W • Frequency response: 50 Hz–50 kHz • Dimensions (W x H x D): Weight: 190 x 284 x 177 mm; 3.5 kg/unit

NS-F500

3-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 160 W • Frequency response: 40 Hz–50 kHz • Dimensions (W x H x D): Weight: 224 x 981 x 349 mm; 19.1 kg/unit

The NS-500 Series are offered with Brown and Black finish available

NS-SW500

Advanced YST II Subwoofer

- Dynamic power: 250 W • Frequency response: 20–160 Hz • Dimensions (W x H x D): Weight: 380 x 368 x 420 mm; 18.5 kg

Advanced YST II for Awesome Deep Bass

Yamaha's Advanced YST II (Yamaha Active Servo Technology II) uses Advanced Negative Impedance Converter (ANIC) circuits to maintain excellent linearity. This means more stable and accurate low range response and higher sound pressure levels, for more natural and energetic bass reproduction.

QD-Bass Technology Allows Free Placement

QD-Bass (Quatre Dispersion Bass) technology uses down-firing drivers with square, pyramid-shaped reflective plates to radiate the sound efficiently in four horizontal directions. It provides extraordinary power and smooth frequency response from an extremely compact unit. It also allows greater freedom of placement, since the sound radiates with equal effectiveness in all directions.

EF Series

NS-555

3-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 250 W • Frequency response: 35 Hz–35 kHz • Dimensions (W x H x D); Weight: 222 x 980 x 345 mm; 20 kg/unit

NS-C444

2-Way Acoustic Suspension Centre Speaker

- Maximum input power: 250 W • Frequency response: 55 Hz–35 kHz • Dimensions (W x H x D); Weight: 514 x 190 x 213 mm; 7.3 kg

NS-777

3-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 250 W • Frequency response: 30 Hz–35 kHz • Dimensions (W x H x D); Weight: 276 x 1,100 x 390 mm; 24.4 kg/unit

NS-333

2-Way Bass-Reflex Speakers

- Maximum input power: 150 W • Frequency response: 60 Hz–35 kHz • Dimensions (W x H x D); Weight: 200 x 320 x 213 mm; 5.5 kg/unit

HT Series

NS-P60

Centre and Surround Channel Speaker Package

- Maximum Input power (centre/surround): 180/150 W • Frequency response (centre/surround): 70 Hz–30 kHz/80 Hz–30 kHz
- Dimensions (W x H x D); Weight: (Centre) 465 x 135 x 174 mm; 3.5 kg, (Surround) 150 x 265 x 156 mm; 2.3 kg/unit

NS-50F

2-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 240 W
- Frequency response: 35 Hz–35 kHz
- Dimensions (W x H x D); Weight: 233 x 880 x 271 mm; 12.5 kg/unit

Subwoofers

YST-SW515

Advanced YST II and QD-Bass Subwoofer

- Dynamic power: 270 W • Frequency response: 20–160 Hz • Dimensions (W x H x D); Weight: 350 x 430 x 382 mm; 19 kg

YST-SW315

Advanced YST and QD-Bass Subwoofer

- Dynamic power: 270 W • Frequency response: 20–160 Hz • Dimensions (W x H x D); Weight: 350 x 430 x 382 mm; 19 kg

YST-SW325

Advanced YST II and QD-Bass Subwoofer

- Dynamic power: 170 W • Frequency response: 25–180 Hz • Dimensions (W x H x D); Weight: 315 x 380 x 374 mm; 13 kg

YST-SW215

Advanced YST and QD-Bass Subwoofer

- Dynamic power: 150 W • Frequency response: 28–200 Hz • Dimensions (W x H x D); Weight: 290 x 360 x 322 mm; 11.5 kg

YST-RSW300

Advanced YST II and Front-Firing Subwoofer

- Dynamic power: 270 W • Frequency response: 20–160 Hz • Dimensions (W x H x D); Weight: 372 x 400 x 428 mm; 20 kg

YST-SW216

Advanced YST II and Front-Firing Subwoofer

- Dynamic power: 100 W • Frequency response: 25–180 Hz • Dimensions (W x H x D); Weight: 340 x 340 x 385 mm; 11.2 kg

YST-SW012

Advanced YST II and Front-Firing Subwoofer

- Dynamic power: 100 W • Frequency response: 28–200 Hz • Dimensions (W x H x D); Weight: 290 x 290 x 328 mm; 8.5 kg

YST-FSW100

Advanced YST II and FD-Bass Subwoofer

- Dynamic power: 130 W • Frequency response: 30–200 Hz • Dimensions (W x H x D); Weight: 400 x 375 x 157 mm; 9 kg

Walnut, cherry and silver finish available

Black finish available

NS-210 Series

The NS-210 Series are offered with Piano White and Piano Black finish available

NS-C210

NS-B210

NS-F210

NS-SW210

NS-F210

2-Way Bass-Reflex Floorstanding Speakers

- Maximum input power: 120 W
- Frequency response: 50 Hz-45 kHz • Dimensions (W x H x D); Weight: 236 x 1,050 x 236 mm; 7.3 kg/unit

NS-C210

2-Way Bass-Reflex Centre Speaker

- Maximum input power: 120 W • Frequency response: 65 Hz-45 kHz • Dimensions (W x H x D); Weight: 340 x 105 x 132 mm; Weight: 2 kg

NS-B210

Full-Range Acoustic Suspension Speakers

- Maximum input power: 120 W • Frequency response: 75 Hz-35 kHz • Dimensions (W x H x D); Weight: 105 x 215 x 132 mm; 1.6 kg/unit

NS-SW210

Advanced YST II Subwoofer

- Dynamic power: 100 W • Frequency response: 30-160 Hz • Dimensions (W x H x D); Weight: 166 x 450 x 366 mm; 10 kg

Outdoor Speaker Series

NS-AW392 (pair)

NS-AW592 (pair)

NS-AW992 (pair)

NS-AW392

All-Weather Speakers

- Maximum input power: 120 W • Frequency response: 60 Hz-25 kHz • Dimensions (W x H x D); Weight: 170 x 273 x 136 mm; 1.8 kg/unit

NS-AW592

All-Weather Speakers

- Maximum input power: 180 W • Frequency response: 50 Hz-20 kHz • Dimensions (W x H x D); Weight: 233 x 388 x 208 mm; 3.7 kg/unit

NS-AW992

All-Weather Speakers

- Maximum input power: 150 W • Frequency response: 55 Hz-20 kHz • Dimensions (W x H x D); Weight: 206 x 341 x 170 mm; 2.4 kg/unit

The NS-AW392, NS-AW592 and NS-AW992 are offered with black and white finish

In-Ceiling Speakers

YST-SW030

Advanced YST and QD-Bass Subwoofer

- Dynamic power: 130 W • Frequency response: 28-200 Hz • Dimensions (W x H x D); Weight: 290 x 360 x 311 mm; 10 kg

Cherry finish available

YST-SW015

Advanced YST and QD-Bass Subwoofer

- Dynamic power: 120 W • Frequency response: 30-200 Hz • Dimensions (W x H x D); Weight: 280 x 325 x 320 mm; 9.2 kg

Piano Finish

NS-IC800

In-Ceiling Speakers

- Maximum input power: 140 W
- Frequency response: 50 Hz-28 kHz • Dimensions (diameter x depth): ø283 x 109 mm/mounting depth: 109 mm/Weight: 1.9 kg/unit

NS-IC600

In-Ceiling Speakers

- Maximum input power: 110 W
- Frequency response: 65 Hz-28 kHz • Dimensions (diameter x depth): ø242 x 109 mm/mounting depth: 109 mm/Weight: 1.5 kg/unit

Single Stereo System

NS-ICS600

In-Ceiling Speakers

- Maximum input power: 120 W
- Frequency response: 65 Hz-28 kHz • Dimensions (diameter x depth): ø242 x 109 mm/mounting depth: 109 mm/Weight: 1.8 kg/unit

YST-FSW150

Advanced YST II and Down-Firing Rack Mountable Subwoofer

- Dynamic power: 130 W • Frequency response: 30-160 Hz • Dimensions (W x H x D); Weight: 435 x 151 x 350 mm; 9.4 kg

YST-FSW050

Advanced YST II and Down-Firing Rack Mountable Subwoofer

- Dynamic power: 100 W • Frequency response: 35-160 Hz • Dimensions (W x H x D); Weight: 350 x 163 x 350 mm; 8.5 kg

YHT-594

Home Theatre Package

YHT-594 includes

- AV Receiver HTR-3063 (Black)
- 5-channel 120 W/ch (max); 5-channel 500 W (100 W x 5, RMS)
- HDMI (V.1.4a with 3D)
- 1080p-compatible HDMI repeater (4 in/1 out)
- YPAO sound optimisation for automatic speaker setup
- SCENE buttons for one-touch operation
- Upgraded CINEMA DSP with 17 DSP programmes
- Dimensions (W x H x D): 435 x 151 x 315 mm • Weight: 7.5 kg
- Front speaker system including centre speaker NS-BR300 (Black)
- 50 mm height slim soundbar
- Width and height-adjustable feet
- Dimensions (W x H x D): 800 x 50 x 70 mm

- Surround Speakers NS-B285 (Black)

- Dimensions (W x H x D); Weight: 90 x 120 x 123 mm; 0.51kg/unit (with stand)
- Subwoofer NS-SW280 (Black)
- Dimensions (W x H x D); Weight: 262 x 264 x 316 mm; 6.9 kg
- Floorstanding Speaker Stands SPS-90 (Black)
- Dimensions (W x H x D): 230 x 910–1,200 (height adjustment) x 230 mm
- Weight: 2.2 kg/unit

BD-Pack 300

Home Theatre Package

BD-Pack 300 includes

- AV Receiver RX-V367 (Black) • See page 11
- Blu-ray Disc Player BD-S667 (Black) • See page 13
- 5.1-Channel Speaker Package NS-P285 (Black)
- Same as YHT-394

Titanium finish available:

(RX-V367 Titanium + BD-S667 Titanium + NS-P285 Black)

Titanium finish available

BD-Pack 400

Home Theatre Package

BD-Pack 400 includes

- AV Receiver RX-V467 (Black)
- See page 10
- Blu-ray Disc Player BD-S667 (Black)
- See page 13
- 5.1-Channel Speaker Package NS-P285 (Black)
- Same as YHT-394

YHT-394

Home Theatre Package

YHT-394 includes

- AV Receiver HTR-3063 (Black)
- Same as YHT-594
- 5.1-Channel Speaker Package NS-P285 (Black)
 - Maximum input power (front/centre/surround): 80/100/80 W
 - Dynamic Power (Subwoofer): 100 W
 - System frequency response: 30 Hz–40 kHz
 - Dimensions (W x H x D); Weight: (Front/Surround) 90 x 120 x 123 mm (with stand); 0.45kg/unit (without stand), (centre) 220 x 90 x 109 mm; 1 kg, (Subwoofer) 262 x 264 x 316 mm; 6.9 kg
- Floorstanding Speaker Stands SPS-90 (Black)

HiFi Pack 316

HiFi Component Recommended Combinations

HiFi Pack 316 includes

- Receiver R-S300 (Black) • See page 36
- CD Player CD-S300 (Black) • See page 36
- Speaker System NS-333 (Piano Black) • See page 44

Silver finish available:

(R-S300 Silver + CD-S300 Silver + NS-333 Piano Black)

Silver finish available

CINEMA DSP
DIGITAL

Yamaha's unique technology for the creation of sound fields is capable of powerfully reproducing the three-dimensional environment that movie sound engineers aim to convey, in any audio format from monaural to the latest multi-channel digital surround. It is compatible with DVD and all other A/V sources. Yamaha CINEMA DSP technology has received a patent in the U.S. (Patent No. 5,261,005).
